LSA '97

My philosophy is to teach and encourage kids, who don't always possess a natural talent, the game of soccer and to strive for excellence in every facet of their life. I cherish nothing more than to take a young man who doesn't know the game of soccer at all and watch him develop each and every week just by having a willingness to learn and give 110%. My number one coaching goal is to give back to young players some of the teachings of the game that I love so much. I strive to help all my players achieve what they would like to work on each and every season and grow into talented young players.
