My philosophy is to teach and encourage kids, who don't always possess a natural talent, the game of soccer and to strive for excellence at all times in all that they do. I cherish nothing more than to take a kid who doesn't know the sport at all and watch him develop each and every week just by having a willingness to learn and give 110%. My goals are to give back to kids some of the teachings of the game that I love so much. I strive to help all my players achieve what they would like to work on and achieve each season and grow into talented young players
