Future Cardinals Camp Overview

- The Future Cardinals camp will focus on the development of ball mastery, first touch, and speed of play by maximizing time spent with the ball through the course of the camp.
- Our camp size will be kept small so the players get as much individual attention as possible with the staff in order to receive constant feedback and coaching to create the best learning environment possible.
- Our staff of University of Louisville Women's Soccer players and coaches are committed to helping educate the Louisville Community's future stars.
- We hope you will join us for a great week of learning in a fun and energetic environment!
