PERSONAL STATEMENT

I believe that every player needs to take the information which we as coaches teach, bring it home with them and that is where the real development/creativity as their own unique player with a soccer ball truly begins. Whether it be as simple as juggling between stones, or fundamentals of shooting with a friend, without that extra one on one time how do we really find our own unique play style which differs us from the rest of the world.

MEMBERSHIP

- Louisville Soccer (Coach) – 2 years
